

# Fairy Garden

## Here's what you'll need!

- Rocks and Pebbles
- Moss, Grass and Flowers
- Mushrooms
- Windchimes and suncatchers

## Instructions:

1. Find a quiet space in your garden, perhaps in a corner
2. Begin by clearing a space
3. Arrange the pebbles and rocks into a mystical design
4. Fill the ground in your garden with the grass and moss and then poke the flowers into it to make them stand up
5. Pin your wind chimes and suncatchers to the fence or wall around the garden to stimulate the senses
6. Create a focal point with a fairy house, you could use the mushrooms for this, small mushrooms make a great fairy chair!
